Thank you Alysén. The drums represent a deleterious materials hazard that are in violation under R647-4-107. I will agree not to write up the violation on the condition that they be removed within 30 days of the date of this email.

Also, there is quite a bit of scrap metal that I see on the site. This should be sent to a recycling facility. Denise et. al, please let's work together to get this bone yard area cleaned up. It is in everybody's best interest to do so.

Thank you.

April

Hi April,

I agree after seeing the pictures that those barrels, and the soil underneath, should be removed to an appropriate facility. I have personally had good dealings with Clean Harbor, and will encourage TSHI to come up with a removal plan. I would be available to work with TSHI and Clean Harbor, or another qualified entity of TSHI's choosing, to help oversee the removal.

Thanks,

Alysén Swenson

Please let me know when this task gets completed. As I mentioned on the call, I will need to conduct a follow-up inspection.

April
